REMARKS				
1. On 6 August 1952, the barracks installation on the western exit of Hillersleben on the southern border of the Letzling Heath troop training grounds (E 53/Y 51) quartered only a few officers and EM who wore red-bordered black epaulets with tank insignia. No training activity was noticed. About 20 trucks were parked in the western section. The four-mast radio station was about 70 meters from the radar set with ears and both were in the middle of the south side of the barracks installation. Five permanent contents are the side	g			
of the barracks installation. Five permanent garages, each about meters long, were under construction in the northeastern section of the billeting area.				
2. On 6 August, there was almost no activity in the barracks installat on the northeastern exit of Hillersleben. Only some officers and EM wearing red-bordered black epaulets with artillery insignia were observed. Truck entered the installation.	ion			
3. On 6 August,determined that numerous new barracks had been erected in the camp in the woods south of Huetten. At least 100 motor vehicles were parked there and about 60 tanks were in open	i			
5X1 sheds. Officers and EM observed in Huetten wore red-bordered black epaulets with tank insignia. Motor vehicles				
25X1 were in front of the supply derot.				
4. On 6 August, a sentry with red-bordered black enaulets stood guard at the large camp in the woods near Born. Twenty-five soldiers wearing red-bordered black epaulets, including some with artillery insignla, marched toward the camp in the woods, equipped with rifles	5			
25X1 and two light machine runs. A large tent camp with motor vehicles and				
artillery reces was observed about 2 km north of Born and east of the road. Truck drove to the tent camp. The were no Soviet troops in the village of Letzlinger. The firing from	re			
heavy and light artillery pieces and individual shots fired in intervals of 5 to 10 minutes were heard from the troop training great from the troop
